INSPIRING INFINITE WORKPLACE POSSIBILITIES

BUILT FOR FLEXIBILITY,
PRIMED FOR PERFORMANCE

MINIMUM COMPONENTS MAXIMUM FLEXIBILITY

With the increasing need for more flexible working environments to suit a broader range of users, the XTEN desking system is specifically designed to reconfigure your office space to meet the needs of your growing and changing business environment.

From two-occupant workstations for concentrated individual work to 6-man cluster desks with peninsulas for collaboration, conferencing and training purposes, this extendable desking system is extremely space efficient in that additional workstations can be added to the layout to create spacious solutions, thanks to an astute array of structural components. Allowing for seamless plug-and-play connectivity, the XTEN desking system features a flexible cable management solution, either in the form of a full-span trunking system or segmented tray.

WORLD-CLASS PERFORMANCE

MANY CHOICES,
ONE REFINED AESTHETIC

Trigo simple design allows you to build a variety of spaces that blend together, both aesthetically and functionally.

Trigo solves any workspace's needs with the flexibility to adapt as those needs change.

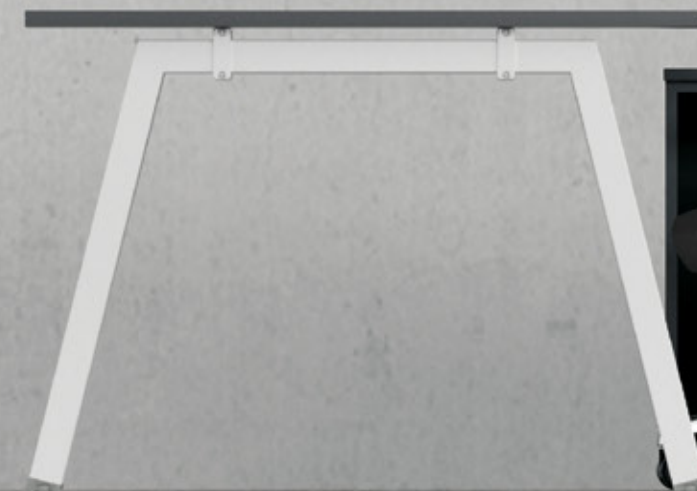

How we work has changed dramatically in the last decade – and that will only continue. Today's workplace needs a range of applications that support the different types of workers and work being done. From individuals to groups, focused to collaborative work, Trigo offers a range of applications to meet these challenges today, and the choices to adapt to the needs of tomorrow.

An effective use of workplace considers the needs of the organization as well as the individual. Trigo creates highly effective and inspiring spaces even in a small footprint.

Choices and scalability ensure Trigo can change with the needs of an organization and its people. As teams grow and condense, as personal preferences shift, organizations can respond—well into the future—by scaling the system up or down, or changing how it's arranged.

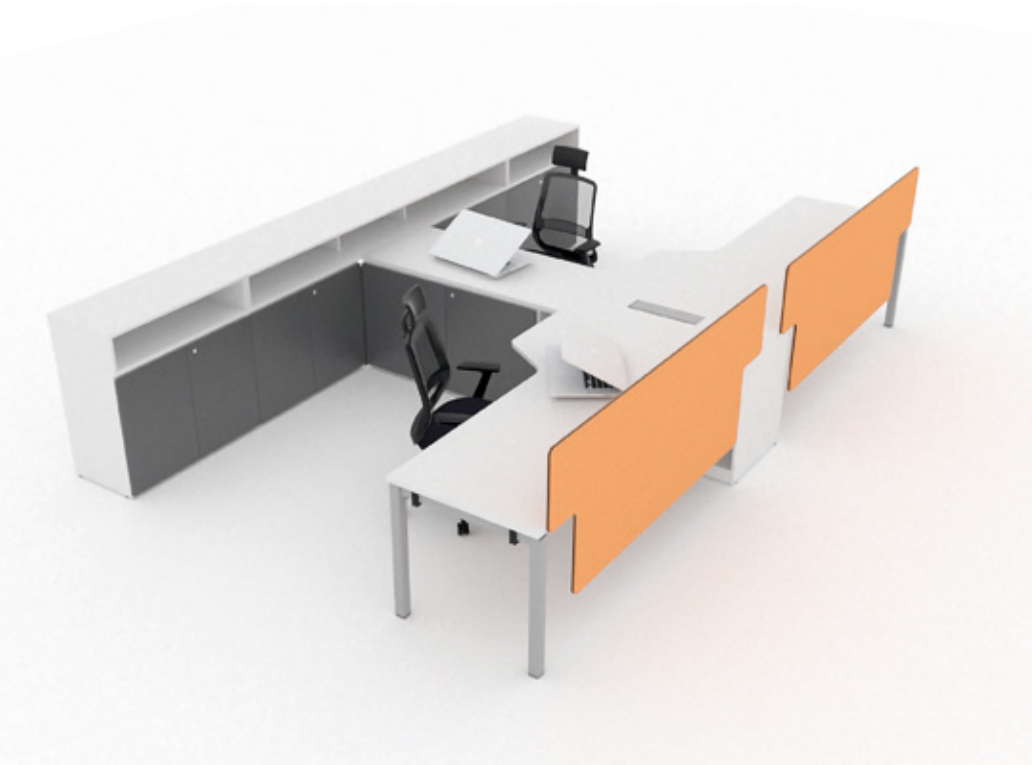

EFFORTLESS SIMPLICITY

BALANCING STATEMENT WITH SIMPLICITY

Simple doesn't have to be boring; in fact, when it comes to desking systems, the simpler the better. The Cimple desking system is a simple, practical design where extravagance is eschewed to make a statement. Clean lines, neutral colours and white space converge to achieve an understated effect whilst being elegant and timeless.

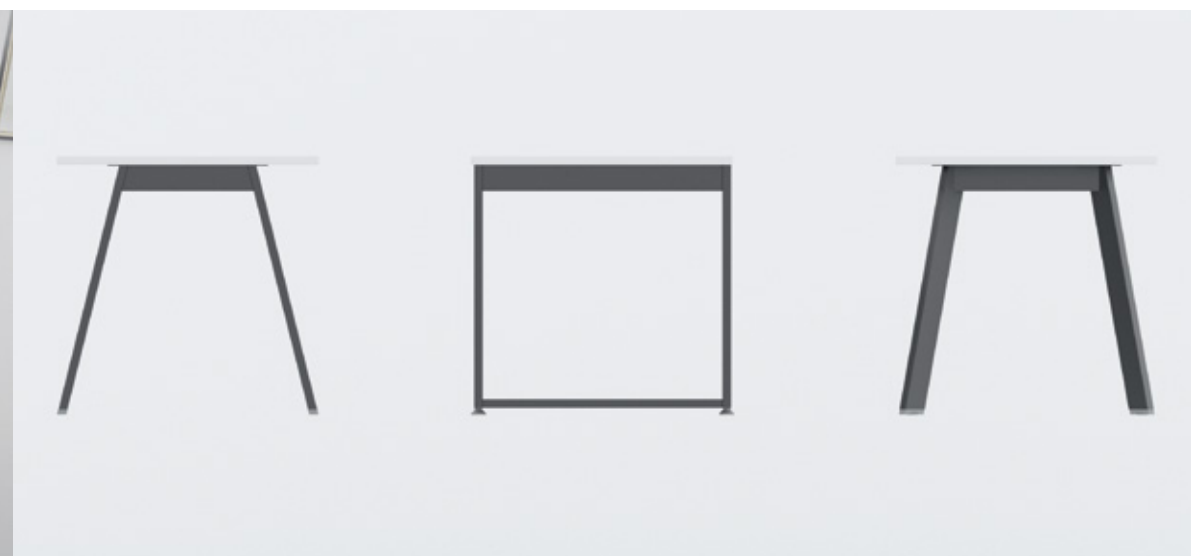

All of the Cimple applications feature an integrated cable management system, invisibly providing power and access to internal or external networks, audio, video or data. Even better, on-site assembly is simple and straightforward.

A range of tabletop sizes offer variations to create spaces that allow for interacting or heads-down focus while different base options, tabletop shapes and finishes create surface appeal.

Focused on function and visual integrity, the Cimple desking system truly demonstrates an attention to detail that reflects today's clean-lined design sensibilities.

THE WORKSPACE WITH A SYSTEM

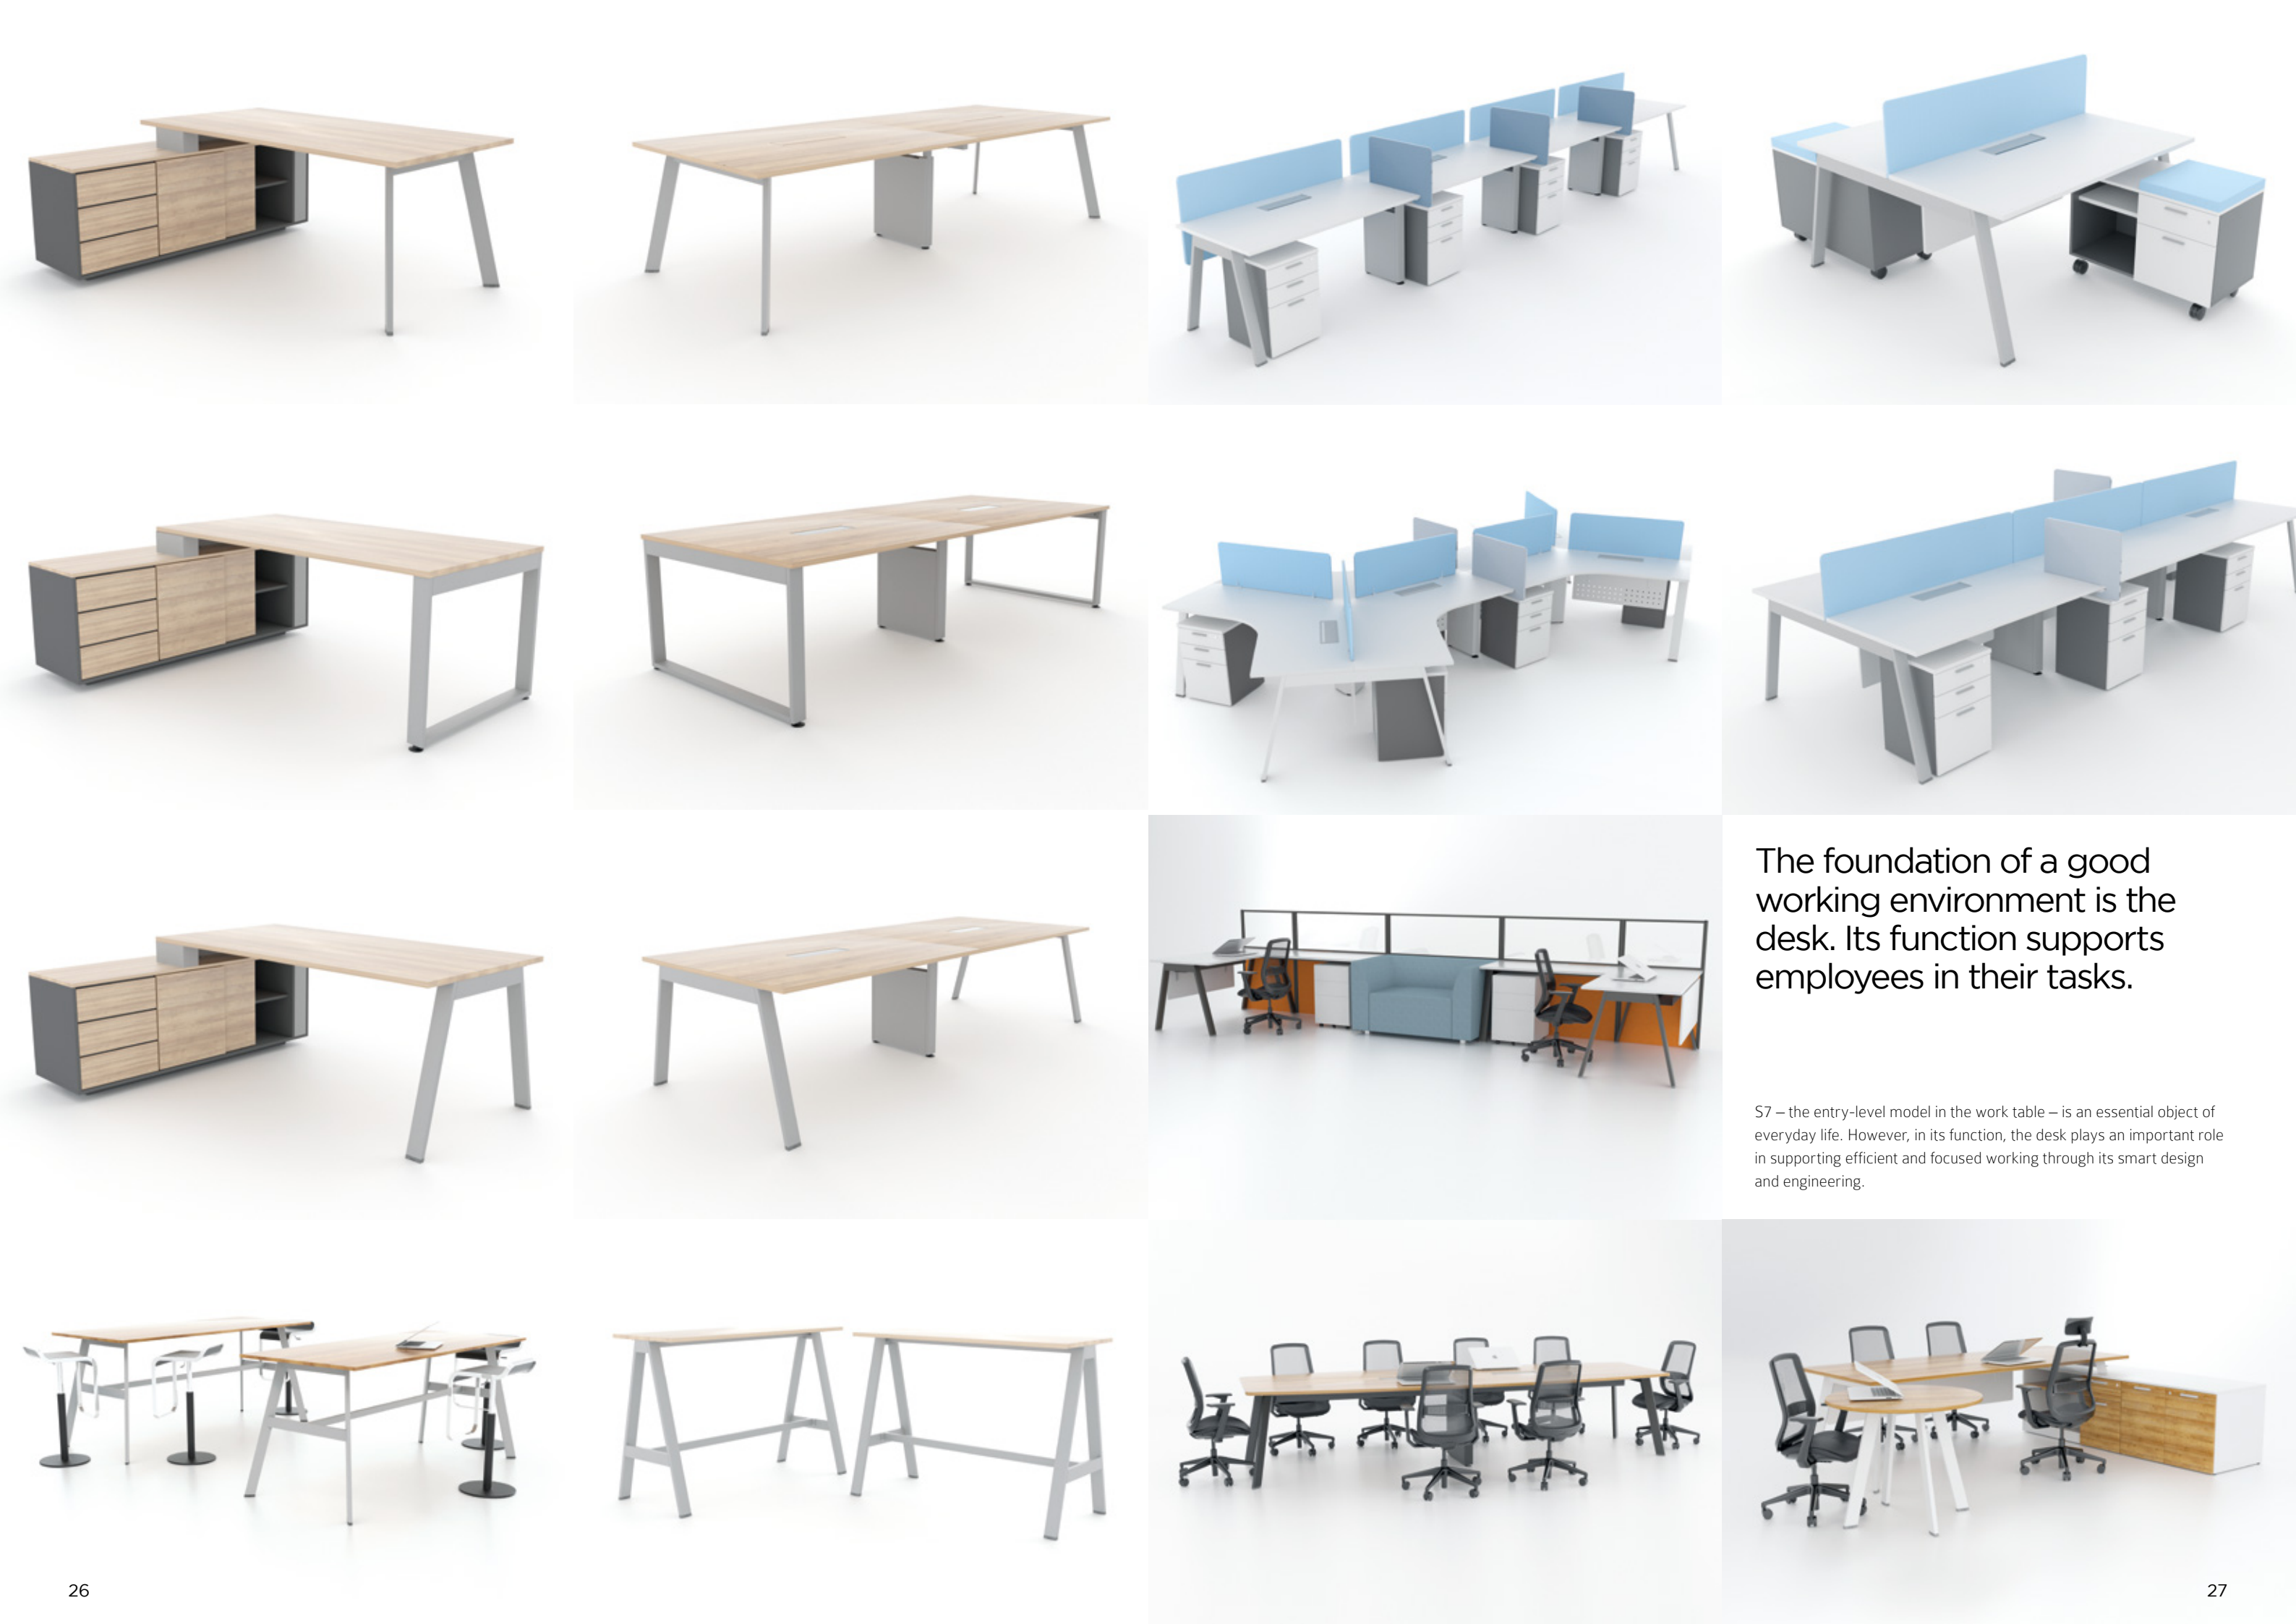

X-Shape Leg

Ring Leg

A-Shape Leg

The foundation of a good working environment is the desk. Its function supports employees in their tasks.

S7 – the entry-level model in the work table – is an essential object of everyday life. However, in its function, the desk plays an important role in supporting efficient and focused working through its smart design and engineering.

+ Modesty Panel

**ON THE
FLIPSIDE**

Due to its light weight structure, the TEAM flip-top table can be effortlessly and quickly reconfigured. The flip-top mechanism and twin-wheel castors allow the table to be moved with ease.

When not in use Team neatly nests together and can be stored away using minimum space; ideal for classroom and training environments.

Team is a single table designed to fulfil a broad range of sizes and functional requirements.

From rows of desks for individual work to formal conference meetings, Team can be re-configured to create the most efficient use of space.

**MAKE
YOUR MOVE**

With emphasis on human-centred design and ergonomic excellence, the STS (Sit-to-Stand) ingeniously combines height-adjustability and collaborative work systems into one elegant desking solution.

Central to its design is its height-adjustable desking system which revolutionizes the standard sit-to-stand workstation. Componentry and electrical elements have been simplified and kept in a uniform manner, making large groups of height-adjustable desks easier to configure as a single workstation. To complement these desks, storage and meeting tables as well as shared cable management can be integrated for higher flexibility and better use of space. With the addition of work surfaces, screens, power supply and storage units, these desks become more functional and substantial, appealing to our human nature.

More than just a sit-stand desking system, the STS goes above and beyond to bring more possibilities into the workplace.

T25 - 25mm

CREATING PERSONAL FOCUS

The SPOD offers a variety of private workspaces that provide the peace and quiet to focus while promoting flexibility and interaction in an open-plan office.

Is it possible to maintain an open office environment and still provide a measurable degree of privacy? And can the often competing needs of individual and collaborative work be satisfactorily addressed in the same workplace?

Given the range of shapes, sizes and colours, the SPOD workspaces will suit any open-plan office, while delivering on the flexibility of 'relocatable' retreats. Its vaguely honeycomb-like arrangement is unexpectedly upbeat.

With a smart selection of furniture and accessories that can be added inside to make the spaces as inviting as they are functional, these retreat zones can also provide modern, eye-catching design solutions for the office, not to mention that the colour choice available will either brighten the existing office environment or keep to a colour palate already in use.

THE FEELING OF FREEDOM

We wanted to find one word to describe Axiom, but couldn't choose between fantastic, beautiful, elegant, reliable, comfortable, ergonomic, desirable, sophisticated, etc. So we settled for "All of the Above". Having just one of these chairs in the office will cause endless of jealousy and arguments.

Axiom takes a serious approach to ensure individual comfort, support and personal expression. This slim and slender line from the elegant harmony of inspiring shape and translucent material opens up a new perspective of your space by casting a spell of modern design.

INFLUENCE
THE WORLD

Drawing inspiration from a great American singer, Calmo is here for its sole purpose to become one of the greatest mesh chairs in the history of office seating. It's impeccable designs and functions ensure perfect balance between functionality, comfort, extra options and most reasonable price point.

Calmo is optimized with features such as a full mesh back option for breathability, a waterfall-edge cushion to maintain regular levels of leg circulation and more comfort customization than chairs many times its price.

Calmo is a fine example when extreme and praiseworthy focus on sustainable, eco-friendly design and gorgeous aesthetics come together with research-back ergonomics are knitted together.

A MULTIFACETED PERSONALITY

A multifaceted office environment can put even the most functional seating to the test. It takes many years of experience to know the ins and outs of such a complicated requirement and Prom series is developed to handle such a multifaceted seating situation with ease.

Once users lay their eyes on the series, Prom can be customized and accessorized with an abundance of available options to meet even the most demanding seating requirements and the carefully designed contour of each component will ensure optimizes user's comfortability during usage.

Paired with this multifaceted series is its commitment to the environment. Recycled materials are incorporated into the series whenever possible, making Prom one of the most environmental-friendly series available in the market.

**SIMPLE,
HUMBLE
AND INTUITIVE**

With a perfectly designed outlook and gentle curves, the Piatto chair is elegant and stylish. As most of its parts are made from recycled material, the Piatto represents the beauty of simplicity and harmony between nature and human. Thus, its owner can relax with a clear conscience.

Simple in all the right ways, comfortable in all the right places - that's Piatto. It's easy to specify, easy to sit in, and pairs perfectly with all of your open plan collections. Piatto redefines office seating as it conveys a sense of ease, value and comfort. The chair's design and handling are equally ingenious. You can confidently tick all the boxes in terms of function and design, as Piatto is simply a seamless solution for all workplaces.

DESIGN-BASED ERGONOMIC SOLUTION

FUTURE FORWARD WORKPLACE DESIGN

Pronta redefines what an affordable work chair can be. Efficiently designed and engineered to assure ergonomic alignment and support, it gives people both short-term and long-term comfort at an equally comfortable price.

Everyone in your office deserves ergonomic support and spinal alignment. With built-in sacral reinforcement and options for adjustable lumbar support, Pronta strengthens employee wellness through engineered design that's affordable for all.
